

RETURN GOODS POLICY

Vibra Finish media is warranted against defects in material and workmanship. This warranty applies only to media that has been used in accordance to the manufacturers' instructions. A sample of the defective media must be submitted prior to replacement or return authorization.

Media returned for any other reason must be shipped within 30 days of purchase. Media must be clean, dry, and free of debris and packaged in 50 lb. boxes or bags. Vibra Finish will supply boxes or bags at a charge of \$1.00 if necessary.

All returns must have a return goods number (RGA) supplied by Vibra Finish, marked on the bill of lading. Returns not bearing this number will not be accepted by our receiving department.

All returned media is subject to a minimum 25% inspection and restocking charge.

Transportation charges must be prepaid or third party billing. Collect shipments will not be accepted.

Special formulations, shapes or sizes will not be allowed for returns.

In order to control costs we must adhere to this policy. Please plan your media purchases carefully as most of our returns are the result of improper media selection. Vibra Finish will be happy to aid in the selection process by sample testing parts in our laboratory, free of charge.

Thank you for your continued business and cooperation in this matter.
